

GENERAL NOTES

1. This drawing shall be read in conjunction with all other relevant architectural, structural & electrical drawings including those of other consultants.

2. It is the responsibility of contractors & manufacturers to check all relevant site dimensions prior to the start of construction or manufacture.

3. All materials and components must be installed on site in accordance with manufacturer's instructions, shop drawings and standard details.

4. All dimensions are in millimeters unless noted otherwise.

5. Full working drawings, specifications and samples are to be provided by Contractor/Supplier for approval prior to manufacture.

GENERAL NOTES

1. This drawing shall be read in conjunction with all other relevant architectural, structural & electrical drawings including those of other consultants.
2. It is the responsibility of contractors & manufacturers to check all relevant site dimensions prior to the start of construction or manufacture.
3. All materials and components must be installed on site in accordance with manufacturer's instructions, shop drawings and standard details.
4. All dimensions are in millimeters unless noted otherwise.
5. Full working drawings, specifications and samples are to be provided by Contractor/Supplier for approval prior to manufacture.
